

Aimée Flower

I have been involved with Newton Solney school for many years with a child currently attending school and one who has been through the system and moved on. Both of my children also attended our excellent on-site Pre-school. I am a huge advocate of our wonderful school and the huge positive impact it has had and still has on my children. I was keen to join the governing body to add further insights and to assist me in my joint role as Chair of Friends of Newton Solney School. I began volunteering for school when my eldest was in Year 1. I love volunteering at school and helping to make a positive difference with fundraising and social events that benefit our families. Being a governor allows me to be closer to the challenges the school is facing and to understand how FoNSS can help the school to be even better. This is my primary focus as a governor. The school and staff do so much for our children that I feel very strongly about being able to give something back. In a professional capacity I bring a breadth of experience to the governing body as a law graduate having worked in banking, finance and sales. Since starting a family I have been self-employed and prior to helping out at school volunteered for many years with the NCT.
