

Jenny Ward

Having been a parent to a very happy Newton Solney CofE child, I wanted to give back and support the school more actively as a Foundation Governor. I have a background in education, working in both primary and secondary settings and understand how important the early years of education are. Although currently on a career break to raise my young family I hope to continue helping the school grow and develop in my role as governor. I have recently taken on the roles of safeguarding and equalities governor and look forward to the interesting and rewarding roles these will be.
